

Do you or your child have asthma that is not under control?

Asthma can make it hard to breathe. A safe, clean home can help. If you have Medicaid, you may get help at no cost to you. Examples of services that you or your family may be eligible for include:

*Community Health Worker or other trained public health professional

To learn more and to see if you are eligible based on your living situation and health status, connect with your local Social Care Network (SCN)! Get started at <https://nyschildrensasthma.org/social-care-networks> by clicking on the “Find Services” link for the SCN in your community.
